Data Protection - All information received is kept confidential and private and as such is protected under the Data Protection Act, for which the Society is registered.

Members only On- Line Family Forum

Our on-line Forum gives our family members the opportunity to contact other members with whom they can share their knowledge and experiences, ask questions and get in touch with one another.

Would you like to join the Forum, which can be accessed from this website?

Yes / No

Research - From time to time the Society is asked to help with research. Invitations to take part in individual studies are sent by the Society to members who have said they would be willing to participate in research. **Names and addresses are never passed on to researchers.** There is no obligation to take part.

Would you be willing to help with research? Yes / No

Media Volunteers – The Society's office receives requests from newspaper journalists, radio and TV presenters from across the UK, who are doing a feature. These articles are mostly to do with genetic conditions and associated subjects. The journalists like to interview one or more families to get their perspective and their comments. Such requests come to the office and we then contact our media volunteers in the relevant part of the country and ask if they are willing to be interviewed. The content of the journalist's or presenter's article is discussed with the family before it is used. We can of course give you advice and support in taking part in such interviews.

Would you be willing to be a Media Volunteer? Yes / No

Thank you for completing this membership application.
